PRESCRIPTION BIFOCAL LENSES

ADD ONS -

BIFOCAL - SINGLE VISION LENSES

Prescription Bifocal glasses are a two-in-one prescription eyewear comprising of two lens powers, long and shortsighted distances. The lower "D" shaped window of the lens is the reading prescription whereas the upper half is for long-distance vision. Bifocal glasses compensate for presbyopia, the natural degradation of one's vision due to ageing.

Email to info@twinshields.com.au or text a photo of your prescriptions to 0412 704 313. Let us know if you want any extras such as anti-reflection coating or Transition added to quote. If we have any queries, we'll contact you to clarify.

Before you send your Frame, We'll send you a quote.

When you give us your frame to go ahead and made payment, we'll organise to make glasses ASAP.

You can expect delivery within two weeks. We'll also need your mobile number and a delivery address.

Send Frame to: **TwinShields**
